EXPERIENCE

UI/UX DESIGNER

FEB 2025 - Present

YOLO Game Studio

- Designing intuitive and visually compatible UI screens and game elements for mobile games.
- Integrating UI elements directly into Unity.
- Establishing and maintaining a consistent visual language and UI style guide.
- Optimizing UI assets and layouts for various screen sizes and device performance requirements.

GAME DESIGNER

OCT 2022 - AUG 2024

Fabrika Games (Under Voodoo)

- Led design ideation and execution for puzzle games, overseeing art creation and core mechanical features to craft compelling user experiences.
- Collaborated with cross-functional teams, including developers and artists, to ensure seamless integration of gameplay mechanics and visual aesthetics.
- Utilized Trello and ClickUp for process management, tracking development cycles, and ensuring timely project delivery.
- Introduced and tested new gameplay features based on performance metrics, resulting in improved engagement and user retention.
- Drove key game titles to achieve a CPI below \$1 and first-day retention rates of 45-50%, with seventh-day retention rates of 15-20%.

GAME ARTIST

FEB 2020 - OCT 2022

Fabrika Games (Under Voodoo)

- Designed high-quality game assets, including character designs, environments, and user interface elements, ensuring visual consistency across titles.
- Optimized assets for performance across multiple platforms while maintaining visual fidelity and complying to technical constraints.
- Played a key role in prototyping and early-stage ideation by providing visual mockups and contributing innovative ideas to enhance gameplay and user experience.

EDUCATION

GAME AND INTERACTION TECHNOLOGIES GRADUATE PROGRAM

2020 - 2024
